Wedding Maps.com

This is a sample of most of the Icons that we offer for our maps. Hotel and Motel Icons are not listed here. We have nearly every hotel and motel icon in the US. We use these icons to represent a graphic symbol of either an activity or the location of a wedding event. Icons can also be included on your map to indicate a reference point to a known local landmark such as a downtown, airport, shopping center, zoo or a distinctive building..

These icons can be scaled smaller or larger and can be flipped, squeezed or expanded top to bottom to work with your map design. In addition, they can be modified to look more like you want. An example of this is L2 which is a modification of K2 and N3 which is a modification of M3

We encourage you to supply your own icons or other artwork to be used on your map. There is no charge for using your graphics file or scanning your artwork.
